

CODING

10 weeks • Tue 19 July – Tue 20 Sept • 8:00 – 9:00am
• \$240 • Yrs. 4-6 • Connected Classroom • Code 12

10 weeks • Wed 20 July – Wed 21 Sept • 8:00 – 9:00am
• \$240 • Yrs. 4-6 • Connected Classroom • Code 27

Coding seems to be one of the most coveted skills today, and is the backbone of every computer program, app, and website we use. More than that, coding is a skill parents want their kids to learn, as it improves problem solving abilities and expands creativity. We have turned to our tech savvy LEPS dad Rudi Engelbrecht to teach our kids JavaScript, HTML and CSS so they can code their own websites and computer games. Suitable for both new and continuing students, as students progress is tracked and the program is self-paced.

ROBOTICS

10 weeks • Thu 21 July – Thu 22 Sept • 3:20 – 4:30pm
• \$250 • Yrs. 4-6 • Classroom 28 • Code 48

Create and play with your own real world robot and see the world through fresh eyes! This course bridges the gap between the real world and digital play. The possibilities are endless! It teaches kids a basic knowledge of programming concepts and writing code. More broadly, it increases student's problem solving skills, extends their imagination and teaches them how to think critically and work as part of a team.

3D PRINTING
